

The Orchard at Dusk â Back-cover blurb

When Adaeze returns to her grandmother's failing orchard after a decade away, she means to sell it, sign the papers, and leave before the blossoms turn. Instead she finds a town that never stopped waiting for her, a half-finished letter in her grandmother's hand, and a harvest that refuses to be rushed.

A quiet, aching novel about what grows back after loss â and what doesn't.
